13.75 kg, One of the
World's Lightest
Ebikes.

A revolutionary lightweight
bike, winner of the Red Dot
Award.

Gates Carbon Belt Drive, No Grease.

Fiido Air Highlight strengths

13.75 kg, One of the World's Lightest Ebikes.

Lift like it's nothing. Nimble handling, navigate every turn with precision and ease.

Gates Carbon Belt Drive, No Grease.

Trousers won't get stained, your style stays intact. Plus, no rust or breakage, 0 maintenance!

Silent Low-Resistance Motor, Quiet Ride.

No distracting noise, even when accelerating. Low resistance also means it rides smoothly like a traditional bike when powered off.

Red Dot Award Winning Design

Simplistic Elegance. No exposed cables. Electronic components all integrated into the frame. Silky-smooth finish.

Fiido Air Highlight strengths--Technical Features

Minimalist handlebar design

No traditional display no wires; instead, it integrates a smartwatch as an extension, showcasing simplicity and lightweight innovation.

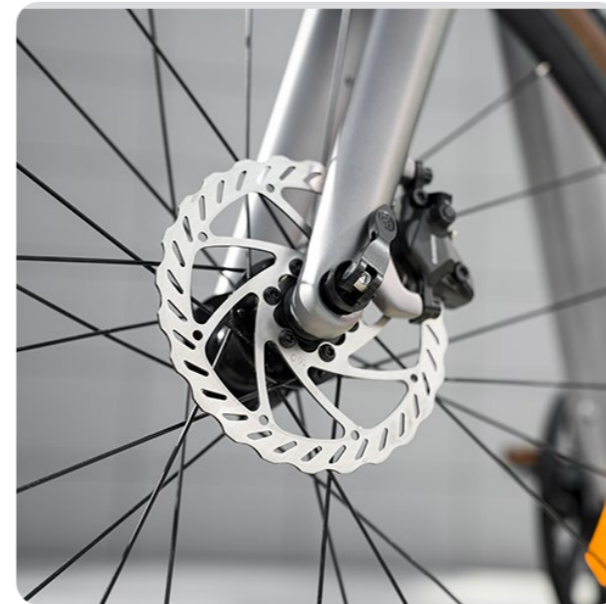

Fingerprint touch control

Features waterproof capability, convenient operation, battery indication and power assist level indication, and a high-tech aesthetic.

Torque sensor technology

Provides natural and smooth pedal assist for a comfortable riding experience.

Hydraulic brakes

Offers powerful and reliable braking performance for enhanced safety.

APP control

control the bike by phone APP or Fiido Mate watch.
